DCI/IC - 73-00088

9 February 1973

MEMORANDUM FOR: Members of SIGINT Committee Ad Hoc Group
on Requirements Satisfaction

SUBJECT : Minutes of the Ninth Meeting, 8 February 1973

1. Attendees were:

25X1

2. The approved terms of reference were discussed briefly.

3. The DIA representative agreed to fill in numbers on his proposed ELINT EOB and Technical box score sheet. He also agreed to try to fill in numbers on a box score sheet for EOB designed by the Chairman. The systems to be included in his score will be all those meeting a physical description as ELINT collectors rather than only those considered and/or tasked for national EOB purposes. The inclusion of non-national (or non-primary tasked) collectors was opposed strongly by the NSA and Navy representatives.

4. With respect to Telemetry, two alternative draft box score sheets had been prepared, Mod A and Md B. DIA, NSA, CIA, Army, Air Force and Navy agreed to fill in these two box score sheets for each of three specific events, an SS-9, an SSNX8 and a KY-9.

5. The purpose for filling the tentative box score sheets is to develop a better feel for their usefulness as well as the difficulty in filling out the sheets.

6. The CIA representative agreed to have his proposed box score [redacted] filled out for the same events as in paragraph 4; FTD will be doing this.

7. The Chairman handed out a draft approach to a box score sheet for EOB General Search for the Group's consideration.

8. Next meeting the Group will discuss the filled out box score sheets.

25X1

Chairman
